The Company's Human Resources Office supports the Appointments and Remuneration Committee in carrying out its tasks, both during the definition and approval of the relative proposals concerning the remuneration of General Managers and Key Executives, and during the phase of monitoring and controlling their complete and correct implementation.

1.2. Content of the Remuneration Policy

The Policy defines principles and guidelines to which the Board of Directors shall adhere to define the remuneration of Board of Directors members and in particular of Directors tasked with specific duties, General Managers and Key Executives.

Cementir Holding pursues a Remuneration Policy aimed at attracting, motivating, developing, rewarding and retaining persons who, thanks to their professional skills and personal ability to apply them in behaviours in line with company goals and who, with the Code of Ethics adopted by the Group, are able to assure the achievement of the expected results, building sustainable value both for shareholders and for the Company's other Stakeholders. The Policy is defined in such a way as to align the interests of Management with those of shareholders, pursuing the priority goal of creating sustainable value in the medium-long term, by establishing a strong tie between compensation, on one hand, and individual and Group performance on the other.

It should be pointed out that no independent experts were involved in preparing the Remuneration Policy.

With the exception of section 1.2.3. (iii) below, relatedly to the medium/long-term incentive system which was approved during the Board Meeting of the 7 March 2014 the Remuneration Policy is the same as the remuneration policy for 2013, approved by the Board of Directors on 7 March 2013 and submitted to the Shareholders' Meeting of 18 April 2013 for a non-binding resolution.

1.2.1. Board of Directors Remuneration Policy

The compensation of non-executive Directors is not tied to the Group's economic-financial results or based on short- or medium-term incentive plans or based on the use of financial instruments.

The Directors' Remuneration Policy comprises the following elements:

- A) compensation set by the Shareholders' Meeting, for the office and for attendance at Board meetings (Article 2364, Paragraph 1, no. 3 of the Italian Civil Code and Article 2389, Paragraphs 1 and 2 of the Italian Civil Code);
- B) compensation set by the Board of Directors for specific duties assigned to some Directors (Article 2389, Paragraph 3 of the Italian Civil Code).

Remuneration of Directors

The compensation to be paid to Directors (letter A above), it shall be in the form of an allowance for attendance at individual Board of Directors meeting set, in accordance with the provisions of the law, by the Shareholders' Meeting.

Remuneration of Directors tasked with specific duties

The compensation to be paid to Directors tasked with specific duties (letter B above) is quantified, at the proposal of or after consultation with the Appointments and Remuneration Committee, with the opinion of the Board of Statutory Auditors, by the Board of Directors, taking into account the work actually required of each of them and any powers vested.

The following Directors have specific duties within the Board of Directors of the Company:

- (i) the Chairman of the Board of Directors;
- (ii) the Chief Executive Officer;
- (iii) the other Directors who are vested with specific powers other than those vested in the Chief Executive Officer;
- (iv) the Directors who participate in Board Committees (Control and Risks Committee, Appointments and Remuneration Committee).

The Directors (i) called upon to be members of the Appointments and Remuneration Committee and of the Control and Risks Committee and (ii) those who were vested with specific powers other than those vested in the Chairman and/or Chief Executive Officer, shall receive an additional fixed compensation, commensurate with the work required from each of them in the performance of their aforesaid duties.

Remuneration of the Chairman and Chief Executive Officer.

The annual gross remuneration of the Chairman of the Board of Directors and of the Chief Executive Officer generally comprises the following elements:

- a fixed component;
- a variable component determined according to the Group's performance and tied to predetermined, measurable parameters connected to the creation of shareholder value in a medium-/long-term time span.

In determining the remuneration of the Chairman and of the Chief Executive Officer, the Board of Directors takes into account (i) the specific content of the vested powers and/or (ii) the functions and the role actually served within the Company, thereby assuring that the provision of a possible variable component is consistent with the nature of assigned duties.

In particular, remuneration is determined on the basis of the following criteria:

- correct balance between the fixed component and the variable component in accordance with the Company's strategic goals and its risk management policy, also taking into account the industry in which it operates and the characteristics of the business it actually conducts;
- provision of maximum limits for the variable components, provided that the fixed component shall be sufficient to remunerate the performance of the Chairman and of the Chief Executive Officer if the variable component is not paid;
- parameters, economic results and any other specific objectives to which the payment of the variable components is tied are predetermined, measurable and connected to the creation of shareholder value in a medium-/long-term time span.

Remuneration of Executive Directors

Actually no position as General Manager is considered and therefore no additional compensation is provided for such position.

In general, for all Directors, there shall be no (i) indemnities in case of resignation or revocation without just cause or non-renewal, (ii) agreements prescribing the allocation or continuation of non-monetary benefits in favour of persons who have relinquished their office and, (iii) consulting agreements with the Directors for a period following termination of their employment.

1.2.2. Remuneration Policy for the Supervisory Bodies

The annual amount of compensation to the Statutory Auditors is determined on a flat rate basis by the Shareholders' Meeting, by virtue of their independence.

1.2.3. Remuneration Policy for General Managers and Key Executives

General Managers

There is no remuneration policy for General Managers.

Key executives

Key executives' remuneration package comprises a fixed and a variable component as well as "non-monetary benefits". The Company deems that the balance adopted between fixed and variable component is in line with its own strategic goals for the maximization of its business results and, hence, of those of the Group as a whole. This balance assures a fixed component sufficient to remunerate Key Executives in those cases in which the variable component is not paid because of the failure to reach objectives.

At the same time, the compensation scheme adopted maintains the proper ratio between its components and adequate incentives to achieve ever improving performance levels within the sustainable value creation structure that is the Company's true objective.

(i) Fixed component

Key executives' fixed compensation may be revised annually on the basis of compensation market surveys provided by specialised companies. The comparison is carried out taking into consideration the reference market, the size and complexity of the company, the level of responsibility, experience and competence associated with the individual positions and the enforcement of the internal fairness principle, applied to maintain a high level of system transparency and consequent motivation of the internal human capital.

(ii) Variable Component

The variable component of Key executives' remuneration is based on a short-term incentive system (VPA), described below as the short-term Incentive - the annual Variable Pay Award System (VPA).

The VPA system is aimed at motivating participants to achieve the annual targets. The bases of the system are the business and financial targets of the Group and of the Subsidiaries, which are the key, to a variable extent depending on the strategic position held, for the assessments of individual performance.

If the Group's business and financial targets are reached, discounting targets are reached, discounting extraordinary factors such as, by way of non-comprehensive example, M&A activities or anomalous exchange rate fluctuations, each participant is evaluated according to 3 individual objectives tied to his/her role.

Each objective is associated with a weight and a related portion of the total monetary incentive. The amount of that incentive is determined by comparison with the reference compensation market.

In order objectively to assess participants' performance, at the start of the year, an expected target value is identified for each objective along with a minimum and a maximum threshold within which the objective is deemed achieved. Therefore, it is necessary for the objectives to be measurable in a certain, objective way, and for the achievement value to be certified on the basis of the official reports of the company management system.

In addition to the aforesaid objectives, the participant in this system is assessed on the basis of a general evaluation of performance which shall illustrate, with specific and documented evidence, the ways in which the aforesaid results were achieved in order to weigh also their impact in view of the objective of the creation of Sustainable Value and not just of short-term results.

The combined effect of the two above factors generates the possible payment of the short-term incentive.

The total value of the incentive may not exceed 36% of the Executive's basic compensation.

(iii) Medium/Long term incentives - The LTI System

Following the approval of the 2014 - 2016 Business Plan by the Board of Directors on 17 December 2013, a medium/long-term incentive plan was devised, relatedly to the years 2014-2015, with the following scopes:

- provide incentives for Top Management to achieve the Group's EBIT objective by 2015, which the above-mentioned Business Plan provides at the end of 2016;
- converge the interests of Top Management with those of shareholders to create sustainable medium/long-term value;
- also add a motivation and retention plan.

The beneficiaries of the Plan are Key Executives and other Executives determined with precise and selective criteria according to their organisation role, their managerial features and their contribution to achieving strategic objectives defined.

The Plan provides for a monetary incentive system calculated as a percentage of the beneficiary's gross annual income, to be paid at the end of the period in question if the economic-financial objectives are achieved as well as an objective related to organisation.

(iv) Non-monetary benefits

Key executives receive certain non-monetary benefits including, by way of example, insurance policies (supplementary health and life), car and telephone.

Treatment/indemnities provided in case of employment termination

No indemnity schemes are provided for the early termination of employment of Key Executives. If employment with the Company is terminated for reasons other than just cause, the intent is to seek arrangement for a consensual termination. Subject in any case to the obligations set out by law and/or by the employment agreement, the arrangements for the termination of employment with the Company are modelled after the relevant reference benchmarks and within the limitations defined by jurisprudence and practice.

It should be pointed out that the Remuneration Policy was devised by the Company without using as reference the policies of other companies.
